PROFESSIONAL SUMMARY

Sr. Software Engineer with **6+ years** of experience specializing in **React.js, TypeScript, JavaScript**, and **modern web application development**, with hands-on experience in **Node.js, Express.js, REST APIs, and MongoDB.** Experienced in designing reusable component-based architectures, optimizing application performance, integrating backend services, and developing scalable web applications. Proven experience leading development activities, coordinating technical discussions, conducting code reviews, mentoring team members, and driving adherence to coding standards and best practices. Strong collaboration with cross-functional teams, focused on delivering maintainable and business-aligned software solutions.

WORK EXPERIENCE

Sr. Software Engineer - Molecular Connections Pvt Ltd, Bangalore
Mar 2025 – July 2026

• Developed scalable web applications using **React.js, TypeScript, Node.js, Express.js, and MongoDB.**
• Applied modern React patterns including **React Hooks, reusable components, state management**, and performance optimization.
• Improved UI performance using techniques such as c**ode splitting, lazy loading, memoization, and optimized rendering.**
• Led development activities including task allocation, technical discussions, code reviews, and delivery coordination.
• Mentored team members and contributed to coding standards, maintainability, and best practices. Collaborated with cross-functional teams to develop and deliver scalable web application features.
• Leverage AI tools such as **ChatGPT, GitHub Copilot, and Codex** to accelerate development

Software Engineer – Amla Commerce, Nagpur
Jan 2024 – Feb 2025

• Developed responsive web applications using **React, Nextjs, TypeScript, JavaScript, and Ant Design**.
• Built reusable UI components and integrated **RESTful APIs with backend services**.
• Designed and worked with **MongoDB (NoSQL)** for data storage, including database operations and schema design.
• Gained basic hands-on experience with **AWS S3 for file and image storage** and AWS EC2 for hosting Node.js applications.
• Assisted with basic application deployment and configuration in AWS environments.
• Improved application performance and participated in code reviews to maintain code quality and best practices.

• Worked in an **Agile environment**, collaborating with cross-functional teams and tracking tasks using **JIRA.**

Software Engineer - Molecular Connections Pvt Ltd, Bangalore

Mar 2022 – Dec 2023

• Developed scalable web applications using **React, Redux, TypeScript, JavaScript, HTML, CSS, and Bootstrap**

• Integrated **REST APIs** and collaborated with backend teams to deliver end-to-end solutions

• Built interactive dashboards and data visualizations using Highcharts

• Implemented **Google Analytics** to track user engagement and application performance

• Managed deployments through Jenkins and contributed to CI/CD workflows

Jr. Software Developer - Bloomstack Corp, Mumbai

Feb 2020 – Feb 2022

- Developed full-stack web applications using **React, Next.js, Node.js, Express.js**, and **MongoDB**
- Built REST APIs and integrated third-party services
- Implemented backend-driven frontend solutions and responsive user interfaces
- Contributed to feature development, bug fixing, and application optimization

Skills

- **Frontend**: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, Responsive Web Design, Ant Design, Chakra UI, Bootstrap
- **React:** Functional Components, React Hooks, Custom Hooks, Context API, State Management, Reusable Components, Code Splitting, Lazy Loading, Memoization, UI Performance Optimization
- **Backend:** Node.js, Express.js, REST APIs, MongoDB
- **Tools**: Git, GitHub, JIRA, CI/CD
- **Testing:** Jest, React Testing Library
- **Cloud:** AWS S3 (File/Image Storage), AWS EC2 (Basic Hosting), Application Deployment
- **Other:** Prompt Engineering, AI-assisted development (ChatGPT, Codex, Copilot)

Projects

- **Journal Manager**

  URL: https://scup-preprod.morressier.com/

  Developed a research paper submission and review management platform where authors can log in, create paper submissions, upload manuscripts, update research details, and track the complete verification workflow. Implemented features for review assignment, reviewer feedback, revision resubmission, approval confirmation, and final paper submission.

- **Knoxbox**

  URL: https://www.knoxbox.com/

  Developed E-commerce website for knoxbox

- **Rawling – Sports Apparel Customization Platform**

  URL: https://integrationdesigner.artifi.net
  Built an interactive web application that allows users to customize sports apparel by selecting fabrics, styles, colors, and patterns with real-time design previews. Developed responsive UI components, product configuration workflows, and backend integrations for customization management.

- **Manuscript Insight**

  URL: https://app.manuscriptinsight.ai
  Rejected manuscript tracking system. This tool is designed to help users to track which manuscripts are rejected by which publishers. In this tool, we tracked the total number of rejected and accepted manuscripts by publishers based on the provided date range

Education

Bachelor of Engineering - G H Raisoni College of Engineering, Nagpur (Computer Science)

2017 - 2020 | CGPA: 8.55

Diploma - Priyadarshini Polytechnic, Nagpur (Computer Technology)

2014 - 2017 | Percentage: 73.42%
